FAQ

What is the K-SCAN?

K-SCAN makes shopping more convenient! With our scanners or with your smartphone, you can scan all the products you put in your shopping trolley yourself. Then you simply pay for your purchase at the self-service checkout.

What are the advantages of K-SCAN?

You can shop faster and more conveniently without having to load your purchase on the checkout belt, and you know the total sum of the goods in your trolley while shopping.

Is the K-SCAN available at every Kaufland store?

Not yet. However, we are working hard to have K-SCANS in our other stores, too.

Do I have to register to use the K-SCAN?

All you need is your activated Kaufland Card. To obtain one, you need to complete the online registration (via the Kaufland app, the customer terminal or at moj.kaufland.sk).

Do I have to pay for the purchase scanned by the K-SCAN with a payment/credit card?

No. At the self-service checkout you can pay either with a card, or with cash, luncheon vouchers or gift cards.

How can I redeem coupons or money-back vouchers with the K-SCAN?

Activate the Kaufland Card coupons you wish to redeem before scanning the QR code from the scanner screen.

If redeeming a money-back voucher for returnable bottles, scan it at the self-service checkout before completing your payment.

How do I buy a product with a security tag?

Put such product aside in your shopping trolley. At the self-service checkout, our staff will help you remove the security tag from the product.

Can I scan age-restricted products, too?

Yes, your age will be checked at the self-service checkout.

Which products cannot be scanned by the K-SCAN?

These are money-back vouchers for returned bottles and gift/reward cards. They can be scanned at the self-service checkout.

Do I get loyalty points if I use the K-SCAN?

Of course! Loyalty points for your purchase will be automatically credited to your Kaufland Card account.
